Motion for a resolution

Paragraph 19

Motion for a resolution

19. *Stresses that EU sovereignty in the field of security and defence means the development, coordination and deployment of strategic capabilities, an efficient division of labour between the Member States and the EU's ability to decide and act autonomously, in line with its own interests, principles and values; stresses that this approach reinforces cooperation with partners, in particular within the framework of NATO; welcomes in this regard the Commission President's announcement that the EU and NATO will present a joint declaration on cooperation by the end of 2021; welcomes the discussion on an 'initial entry force' as presented by the VP/HR;*

Amendment

19. *Is concerned by the Turkish Government's increasingly assertive foreign policy, which is repeatedly putting the country at odds with the EU and individual Member States; takes note of the recent resumption of dialogue between the EU and Turkey on different areas of common interests and amidst lower tensions in our relations; deplores, however, the lack of progress in the long-deteriorating situation regarding human rights and democracy in Turkey which continues to be the main obstacle to advance on any positive agenda that could be offered to the country; insists in its call on Turkish authorities to prove the sincerity of their commitment to closer relations and alignment with the European Union through specific actions and reforms concerning fundamental freedoms and rule of law, including by abiding with ECtHR rulings on the cases of Osman Kavala and Selahattin Demirtaş; recalls, that Turkey will continue to be a country of key strategic interest for the EU and that engagement needs to continue in a phased, proportionate and reversible manner, keeping the country as closely anchored to the EU as possible;*
