Today's chemical attack in Syria against innocent people, including women and children, is reprehensible and cannot be ignored by the civilized world. These heinous actions by the Bashar al-Assad regime are a consequence of the past administration's weakness and irresolution. President Obama said in 2012 that he would establish a "red line" against the use of chemical weapons and then did nothing. The United States stands with our allies across the globe to condemn this intolerable attack.
