A trusted source who met with leaders of groups in Baba Amr today said that a big shipment of weapons is coming from Libya and will arrive at the shores of one of the neighbouring states within three days, to be smuggled to [Syria](#).

It was indicated that they were advanced weapons and the shipment is highly likely [to be sent from] one of Tripoli's illegal ports.

[XXXXXXXXXXXXX] was able to get into Baba Amr and he has told me that many western media delegations have entered the area by crossing the Lebanese borders illegally, one of them was a French and a German media delegation and that fighters are touring the streets specially those who are calling themselves Khalid Ibn al-Walid brigades.

I suggest the formation of a special operation room to supervise the barricades and give the authority to move them and transform them in light of the circumstances and to monitor their performance ...

This will enable us to oversee operations to get out of the problem of each body throwing its responsibility on another body.
