Press release
Syrian Coalition
Media Department
May 15, 2018

The Syrian Coalition condemns the horrific massacre that was committed by the Israeli occupation against Palestinian demonstrators demanding their rights on Monday. The massacre claimed the lives of dozens of demonstrators and left hundreds more injured, including women and children.

The Coalition also reiterates its categorical rejection of the US president's decision to recognize occupied Jerusalem as the capital of Israel and to transfer the US embassy to the city. The move violated international resolutions, most notably UN Security Council resolution 478 (1980) which condemned any attempt by Israel to annex Jerusalem.

The Coalition also denounces the continuing violations being committed by the government of the Israeli occupation against the Islamic and Christian holy sites. It stresses that nothing can justify violence, repression and crimes or grant legitimacy to occupation and mass forced displacement.

The Syrian people will always support the legitimate rights of the Palestinian people to their land and to build their independent state with Jerusalem as its capital, which will remain a Palestinian Arab land. No other party has the right to claim sovereignty over the city. It will not be long before the Palestinian people regain all their rights and achieve a just, comprehensive solution that ends violence and restores stability to the region.

The struggle of the Syrian and Palestinian peoples for freedom and dignity is one. The resistance and resilience that the Palestinian people have shown over the past decades will always remain an example for steadfastness and patience.
