October 14, 2016

[Original in arabic](#)

The Syrian Coalition condemns the terrorist bombing that targeted the outskirts of the town of Azaz in northern rural Aleppo on Thursday night, killing 30 civilians and Free Syrian Army fighters.

The Syrian Coalition renews calls on the international community to take concrete, real action to eradicate terror in Syria and put an end to the ongoing genocidal war being waged against the Syrian people by the Assad regime and its allies.

The Syrian Coalition holds the Russian and Iranian invaders as well as the Assad regime responsible for the spread of terrorism due to their criminal policies. It is imperative that the international community eradicate the root cause of terrorism in Syria, namely the Assad regime.

May our wounded recover, our detainees be free, and our fallen heroes rest in peace. Long live Syria and its people, free and with honor.
