Syria: News of possible use of chemical weapons must be checked immediately by the UN inspectors in the country

2013-08-21

The news from Syria on the possible use of chemical weapons must be checked immediately by the UN inspectors in the country. We'll be discussing the issue in the margins of the extraordinary meeting of EU foreign affairs ministers in Brussels and I'm sure that Cathy Ashton will send out a request to that end, in all our names.

Declaration by Foreign Minister Emma Bonino, speaking from Brussels.
