

The hereunder mentioned health facilities are considered to be signing on the communique below, and confirm that:

They are working for and with Aleppo Health Directorate (AHD) as a technical entity which provides health services including prophylaxis and treatment care for all citizens, seeks to fulfill the vocational safety in all medical and non-medical procedures within the health sector, and delivers continuous capacity building and mentorship for all medical staff according to the national standards .

AHD is a technical institution that has nothing to do with the military and political changes on the ground. It toils to provide the health services to all beneficiaries within its administrative borders without any discrimination or bias based on religion, color, ethnicity, political affiliation, social or economic status .

The signing health facilities urge the international community and the whole parties to the conflict to neutralize the health sector which is assisting three and a half millions living in North West Syria, of which one third are children, and to maintain it apart from any military or political tensions.
