Press Statement

Khaled Khoja

President of the Syrian Coalition

November 14, 2015

On my behalf and on behalf of the National Coalition of the Syrian Revolution and Opposition Forces; I express our strongest condemnation of the horrific terrorist attacks of Paris and hostages taking in Bataclan concert hall.

We confirm our solidarity with our friends; the French nation.

The Syrian people who are daily experiencing Assad and ISIS terrorism stand in solidarity with the French nation against all kinds of terrorism.

I express my deepest condolences for the families of the victims.

Hence, I stress again the responsibility of the International Community to eliminate all kinds of terrorism from the roots including all regimes which patron and finance it; on top of which is the regime of Bashar Assad.
