A text in Arabic is being circulated of an interview made by a reporter and she is working for the Foreign Policy magazine with the Executive Body Chairwoman of the Syrian Democratic Council and many of words and statements have been attributed to Mrs. Elham Ahmed that have not been addressed in the interview. we would like to point out that the meeting which was published was not presented in a traditional form (question-answer), but in a narrative way and the presentation was adopted in the form of an article by the writer, so it is .necessary to mention it
