Statement on the Bombing on Rural Hama and Idlib

Praise be to God, Lord of the worlds, and peace and prayers be on the master of messengers. It is no longer a secret that the Holocaust crime is continually threatening the lives of our people in rural Hama and Idlib, perhaps unprecedentedly in terms of the intensity of bombardment and air raids. No minutes in the past 48 hours have passed without an explosive barrel or a vacuum missile.

The air is never clear from a warplane targeting innocent civilians in a heavily populated area, which means that this criminal practice is a threat to four million people inhabiting the area. hundreds of thousands have been already displaced and the number is still increasing.

An official of the UN has admitted that this bombing is the most violent in 15 months, yet we find only international, regional and Arab silence.

We do not know whether our cities and villages have become a field for settling scores or demonstration of force to intimidate the nations who continue to aspire to freedom and dignity in other arenas by Arab and international complicity.

The Syrian Islamic Council, on this Holocaust, states the following:

First, it condemns in the strongest terms this systematic barbaric criminal act, and condemns the international and regional silence to this continuing crime. It calls on the Arab and Muslim people all free nations everywhere to stand in condemnation of this crime and aggression.

Second, the council warns again from wide waves of displacement because the continuation of this crime will lead to changing the population structure and to further systematic demographic all over Syria.

Third: given that a large number of these displaced people had been evacuated under the sponsorship of the UN, we condemn the silence of the United Nations that had contributed (and made the UN a partner in the crime) to the displacement of those people to zones that have become unsafe, which means that the crime silence has become a double crime.

And finally, our message to our resilient people in the liberated lands of our country is "You have destroyed with your patience and firmness all the conspiracies of the conspirators on our revolution and our Just Cause, and the oppressor will fall back defeated and crushed by the will of God."

"And God is the prevalent but most people don't know"
