

Statement

Hospitals hereunder signing the communique stress that they are working for Idlib Health Directorate as a technical service entity seeking to provide medical health including protection and treatment for all citizens and ensure vocational safety while taking all medical procedures, whether medical or non-medical. IHD also provides sustainable training and mentoring for all medical staff according to the national standards.

IHD is a technical institution that has nothing to do with the military and political changes on the ground. It toils to provide medical service to all beneficiaries within its administrative borders without any discrimination related to religion, color, ethnicity, political or social or economic status.

Hospitals signing the communique urge the international and local entities to neutralize medical sector that helps 3 million and half, one third of which is children and maintain the achievements of medical sector, away from military and political alienation on the ground.
