The Organisation of Islamic Cooperation (OIC) has called for an immediate end to the violence, killings, bloodshed and shelling of cities, villages and residential districts, which are causing hundreds of casualties among the Syrian innocent civilians on a daily basis and driving thousands others into a state of internally displaced people or refugees fleeing from the inferno of the ongoing war in Syria. The General Secretariat appealed to all the Syrian parties to respond positively to the international efforts geared towards a peaceful solution to the Syrian crisis such as to ensure security and stability in the country and meet the legitimate demands of the Syrian people in favour of democracy. The General Secretariat renewed its stand in support of achieving a peaceful settlement to the Syrian crisis.
